

Ethiopian Civil Service University
Office of the Vice President for Administration and Student Service

A Brief Status Report
On
Accessibility of Facilities in Ethiopian Civil Service University
(2020/2021 Academic Year)

September 2022
Addis Ababa, Ethiopia

Introduction

The Office of the Vice President for Administrative and Student Service is one of the organizational divisions responsible for the provision of a variety of administrative services, including service in finance, human resource, procurement, property administration, and student service. The vice president office for Administrative and Student Service is accountable to the office of the president. The administrative division has been engaged in the provision of not only in the administrative and student services —but also the development and expansion of infrastructure in the university. As a result, ECSU has managed to put use several new buildings, using for office, training, catering, halls, class rooms, libraries, store, lounges, power house, executive hostel, staff residence, students' dormitory, students' clinic building, cafeteria and so on. Currently, the university has a great a great deal of building, both residential and non-residential, and this brief status report is prepared to provide information on the degree of accessibility of these buildings of the university.

Organizational Units and Resources

The Office of Vice President for Administrative and Student Service is organized in seven Directorates, including the Property and Building Administration Directorate and Building Project Office. The Administrative and Student Service commands two-third of the total human power of the university, amount to 1133 with different capacities including employees with a PhD Degree. Over the last couple of years, the Ethiopian Civil Service University has invested a significant portion of its annual budget for the construction of building and houses in order to fulfil the infrastructure need of the university and support educational services of the university.

Performances and Accomplishments (2020/2021 Academic Year)

The university currently has 46 buildings, serving as classrooms, offices, laboratories, residential houses. The newly built buildings have universal designs, built to be accessible for physically disabled individuals. In both the existing and new buildings of the university, the ground floors are dedicated to entertain disabled students and staff. For instance, priority is given for physically disabled students and staff to be accommodated in the ground floor in the residential houses of both staff

and students. The following table provides a brief summary of the accessibility level of buildings in the Ethiopian Civil Service University.

SN	Description	Number	Percentage
1	Total Number of Buildings	46	100 %
2	Buildings with a ramp	39	84.8 %
3	Buildings with lift/elevator ¹	4	8.7 %
4	Buildings without ramp	5	13.0 %

Summary

The Ethiopian Civil Service University has made a significant effort to make its buildings and facilities accessible to its students and staff with physical disability challenges. One of the key strategic focuses of the university in its future endeavour, as indicated in the 10 year strategic plan of the university, is to make sure that each facilities and physical infrastructure is accessible to all students and staff, including those with physical disability issue as well as students with special needs.
